PART A

MANAGEMENT DISCUSSION ANALYSIS REPORT

(a) Industry structure and development

The Company is engaged in the wholesale trading of specialty chemicals and commodities through its network of distributors and also undertakes activities in Leasing and Rental Services. During the year under review, the Company intensified its focus on expanding its product offerings and market presence across these sectors, striving to enhance its market share in a highly competitive environment.

(b) Discussion on financial performance and operational performance.

The Company operates in a single business segment, namely the trading of chemicals, and its financial results reflect the dynamics of this segment. During the financial year 2025–26, the Company reported a total income of ₹794.96 lakhs, slightly lower than ₹1,384.05 lakhs achieved in the previous year. The profit for the year stood at ₹41.34 lakhs compared to ₹200.40 lakhs in the previous year.

This decline in revenue and profitability was primarily driven by intensified competition in the chemical trading industry, coupled with fluctuating market demand and pricing pressures. The Company's focus on maintaining competitive pricing, managing costs, and optimizing operational efficiencies helped to partially offset the impact of these challenges.

The Company's solid financial foundation is reflected in its strong share capital of ₹ 800.00 Lakhs and healthy reserves and surplus of ₹5603.08 lakhs as of March 31, 2026, which provides adequate cushion for future growth initiatives and business sustainability.

Looking forward, the Company is committed to strengthening its market position by expanding product offerings, enhancing supplier relationships, and exploring new opportunities to improve profitability and shareholder value.

(c) Internal control system and their adequacy

The Company has established adequate internal control procedures, commensurate with its size and nature of business, for the purchase of raw materials and fixed assets, as well as for

the sale of goods, respectively. These controls ensure proper authorization, timely recording, and safeguarding of assets, thereby enhancing operational efficiency and minimizing risks of errors or irregularities.

(d) Material developments in Human Resources / Industrial Relations front including no of people employed

The Company has always regarded its human resources as the cornerstone of its progress and success, recognizing employees as its most valuable assets. The management firmly believes that the sustained growth of the Company is a direct result of the dedicated and continuous contributions of its workforce. With a balanced mix of skilled and semi-skilled personnel, the Company continually strives to enhance their skills, productivity, and overall capabilities.

A supportive and congenial work environment is maintained to foster employee engagement and well-being. The Company is deeply committed to ongoing improvement in social standards, business ethics, and employee welfare, reflecting its dedication to growing as a responsible and ethical organization.

We strongly believe that harmony among employees, employers, and the business community is vital for socio-economic development. During the year under review, industrial relations remained cordial and stable, contributing positively to the Company's overall performance and workplace culture.

(e) Risk and concerns

The Company primarily relies on importing chemicals from Gulf countries to meet its trading requirements. However, the transit period for these imports often exceeds 30 days, which exposes the Company to significant market price fluctuations by the time the goods reach India. During the last financial year, frequent price volatility in the global chemical markets affected the Company's import volumes. As a result, the Company adopted a cautious stance and limited its imports to mitigate risks associated with unpredictable price changes.

Due to these uncertainties, the Company refrains from entering into long-term supply contracts, preferring short-term or spot purchases that provide greater flexibility in response to changing market conditions. This approach helps the Company manage inventory costs more effectively and avoid being locked into unfavorable pricing. Although this limits the ability to secure bulk purchase discounts or long-term price stability, it safeguards the Company from potential losses due to rapid market shifts.

Moving forward, the Company will continue to monitor international logistics and pricing trends closely and explore alternative sourcing options to enhance supply chain resilience and minimize exposure to transit-related risks.

(f) Opportunities and Threats

The Indian chemical industry, particularly the specialty chemicals segment, continues to present robust growth opportunities, driven by increasing domestic demand, supportive government policies, and the positive impact of the GST regime. The Company is not dependent on any single product type and remains committed to expanding its product portfolio based on evolving local market demand. During the year under review, the Company

has identified and initiated exclusive agency arrangements with several reputed Chinese firms to represent them in India, thereby strengthening its sourcing capabilities and competitive positioning.

Additionally, the wholesale trading of specialty chemicals and commodities, along with Leasing and Rental Services-related activities, offers diversified growth avenues. The Company has been consistently executing major orders from reputed clients while undertaking cost reduction measures, which are expected to improve overall profitability in the current financial year.

However, the business is exposed to certain external risks such as raw material price volatility, foreign exchange fluctuations, regulatory changes, and global supply chain disruptions. Moreover, reliance on international suppliers, particularly from China, may lead to uncertainties stemming from geopolitical and trade policy developments.

The Board believes that with its strategic focus, strong distributor network, and proactive risk mitigation initiatives, the Company is well-equipped to navigate these challenges and continue its growth trajectory.

(g) OUTLOOK

The Company remains cautiously optimistic about its performance in the upcoming financial year. While the trading environment for chemicals continues to be competitive, the Company aims to strengthen its market position through strategic sourcing, expansion of product offerings, and enhanced customer engagement.

With growing demand in end-user industries such as agrochemicals, textiles, pharmaceuticals, and personal care, the Company anticipates stable demand for specialty and industrial chemicals. The management is also exploring opportunities to expand its supplier network, including international agency collaborations, to improve product availability and pricing efficiency.

Overall, barring unforeseen circumstances, the Company expects to maintain stable performance and gradually improve profitability in FY 2025–26.

(h) DETAIL OF SIGNIFICANT CHANGES IN KEY FINANCIAL RATIOS

In the financial year 2025–26, the Company did not experience any significant variations—defined as changes of 25% or more—in its key financial ratios compared to the previous year. Ratios including Debtors Turnover, Inventory Turnover, Interest Coverage Ratio, Current Ratio, Debt Equity Ratio, Operating Profit Margin (%), and Net Profit Margin (%) remained largely consistent.

This stability highlights the Company's steady operational performance and prudent financial management amid a competitive market environment.

(i) Change in Return on Net Worth Compared to Previous Year

During the financial year 2025–26, the Company's Return on Net Worth (RONW) witnessed a decline compared to the immediately previous financial year. This decrease is primarily

attributed to the reduction in net profit for the year, which stood at ₹41.34 lakhs as against ₹200.40 lakhs in the previous year, despite the net worth remaining relatively stable.

The dip in profitability was mainly due to heightened competition, fluctuations in market demand, and pricing pressures within the chemical trading segment. These factors impacted the Company's revenue and margins, thereby influencing the overall return generated on shareholders' equity.

The Company continues to focus on improving operational efficiencies, cost optimization, and exploring new business opportunities to enhance profitability and thereby improve the Return on Net Worth in the coming years.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE“B” TO THE INDEPENDENT AUDITORS’ REPORT

(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Laffans Petrochemicals Limited of even date) **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act “)**

We have audited the internal financial controls over financial reporting of **LAFFANS PETROCHEMICALS LIMITED** (“the Company”) as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over the financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the

design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorities of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of the internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of the changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2026, based on the internal control over financial reporting criteria established by the Company considering the
